TRAFFIX 3PL

TRAFFIX: THE TRANSPORTATION PEOPLE

Secure your freight with Canada's longest-serving 3rd party logistics specialist.

Deliver inbound and outbound freight reliably, anytime and anywhere, with convenient freight-matching services that adhere to the highest industry standards of safety and accountability. In partnership with agents across North America, Traffix 3PL offers both fleet and outsourcing solutions that are fully insured, licensed and bonded. Our carriers meet and exceed the most stringent industry requirements, based on the specific needs of your shipment.

TRAFFIX 3PL

Access thousands of carriers and pieces of equipment for dry and temperature-controlled freight. Air-ride flatbed, drop deck and step deck trailers are outfitted to keep freight safe and secure. Straight trucks & tailgates are also available as shipments require.

Traffix 3PL service includes:

- Immediate quotes and competitive rates
- CTPAT and FAST approved drivers
- CSA, WSIB & PIP accredited service
- 24/7 satellite tracking & access to live Traffix dispatchers
- Delivery notifications via your choice of email or fax
- Expedited shipping solutions
- Accurate invoicing and rapid response to POD requests

Comprehensive services include:

- Expert consultation to identify the best transportation solutions for your business
- Securing of permits for over-dimensional shipments
- Cost-effective approaches such as LTL & stackable units
- Specialized services such as blanket wrap & transportation of dangerous goods or hazardous materials

Not sure of what you need? Experienced Traffix dispatchers ask the right questions during the booking process to ensure every shipment has proper equipment and documentation. Traffix protects your bottom line by identifying concerns early, before they can turn into problems.

Get the advice you need to protect your freight investment. Traffix experts recommend most reliable ways to ship fragile or time-sensitive loads; we know how to problem solve & move your cargo safely and efficiently. With 30 years of proven industry performance, the breadth of our experience is your competitive advantage.

"Staples has been working with Traffix for over 10 years. We have found them to be a true partner in our supply chain needs. As a true partner they are always able to respond with immediate solutions to our most complex logistical challenges."

Traffix

FLATBED SERVICE

Rely on Traffix for the movement of shipments that require an open bed. Traffix Specialized meets your freight movement needs with a full range of flatbed options, in-house and through our extensive partner network. You'll find the best equipment for every type of cargo, all at competitive rates.

As the large machinery experts, Traffix Specialized provides the cranes and equipment required to load and transport individual pieces up to 19,000 lbs – and 40% of our shipments are oversized or over dimensional. Count on the unique expertise of the Traffix team for the movement of:

- Factory components
- Machinery & parts
- Steel beams & coils
- Other large or heavy items.

FLATBED SERVICE

Millions of dollars worth of assets are often loaded on to a single truck, so Traffix uses a small and highly experienced pool of carriers who offer professional, dependable freight movement on a single truck with no outsourcing. They'll cradle your LTL shipments, oversized loads and superloads on a late model, air ride fleet that includes:

- 53ft. triaxle stepdecks
- tandem 48ft. stepdecks
- 48ft. RGN double drops
- 48 ft. double drop step decks
- 48 ft flatbeds
- Servicing every 20,000 km for reliable performance over the long haul

Once loaded, Traffix Specialized creates an environment of full location transparency with:

- Satellite dispatch and tracking
- Bills of Lading & Proof of Delivery forwarded by email or fax for your convenience
- Status reports delivered in real time with regular updates, so you know where your freight is and when it will arrive at its destination
- Drivers and dispatchers who are reachable 24/7

Ensure your documentation is accurate and complete. Traffix Specialized completes your customs paperwork & ACE manifest in house for added protection and peace of mind.

Cross docking is also offered for your convenience.

Protect your cargo investment – rely on Traffix Specialized for the safe transportation of your open bed/flatbed freight.

"Fantastic service by both Sales and dispatch. Our sales rep has a very good knowledge of what we do and how we do it and as such is sensitive to our specific needs. Loads are moved timely and reliably with zero problems."

Traffix

TRAFFIX SMALL: LESS-THAN- TRUCKLOAD (LTL) SERVICES

Identify the most efficient ways to transport your smaller freight shipments with Traffix LTL. Inbound and outbound, across Canada and the U.S. border, Traffix offers service on 48 & 53 ft. air-ride, tailgate & powergate flatbed trailers for shipments as small as a single pallet.

Since pioneering the development of LTL solutions in Canada 30 years ago, our wealth of experience has taught us to think differently. Traffix professionals have what it takes to move small shipments in a cost-effective way, to any state, on any street, on any day – and with in-house cross-docking services, the process unfolds smoothly.

LTL SERVICES

Keep costs in check on your smaller shipments with the help of an expert team. Trafficx LTL Small saves you time and money with:

- Advance notification by phone or email with pickup & delivery times
- Verification that your shipment is ready so trucks are not kept waiting
- Calls to shippers & receivers to confirm their hours and prevents holdups
- A team that does their homework to provide service beyond the rest

Trafficx exceptional LTL Small service also ensures:

- Communication is a priority – you'll be updated via phone or email with regards to the status of your shipment and it's ETA. You're never left in the dark
- Details are taken care of - bills of lading are faxed to shippers to expedite the process; we confirm shipping and receiving hours ahead of time to accommodate seasonal changes and keep everything running smoothly
- PRE PARS are complete - commercial invoices & bills of lading are sent directly to customs brokers in order to expedite the border-crossing experience
- Schedules are maintained by providing a quick in, quick out experience for LTL drivers. They just grab the bills of lading, we've done the rest

Whatever your LTL transportation needs, Trafficx makes it happen. Let our experts show you how.

"Toys "R" Us has had the privilege of working with Trafficx for over twenty years. During that time, they have provided us with truckload and less than truckload transportation services. Trafficx has been an instrumental part of our supply chain. Through superior service, reliability and outstanding attention to detail they have met and exceeded our expectations. Trafficx is a true partner with whom we hope to continue to strengthen our relationship in the future."

Traffix

TEMPERATURE CONTROL

Get your time and temperature-sensitive freight to its destination in peak condition and ahead of schedule. With competitive rates and industry-leading transit times, Traffix specializes in the transportation of temperature-sensitive goods and produce across Canada and to the furthest points of the U.S. With 30 years of experience, we're large enough to serve nationwide retail chains, and small enough to make your business a priority.

Call Traffix and ship with confidence. Our highly experienced and fully qualified drivers maintain your sensitive load with constant monitoring to ensure consistency and prevent temperature fluctuation. Traffix professional temp-control service includes:

- 24/7 satellite tracking and monitoring
- Dispatch team and drivers accessible by cell phone at all times for personalized service
- Full location transparency to ensure the safe and timely delivery of your shipment
- Personal service 24/7; speak to dispatcher directly
- Industry leading Gold Ribbon Service Guarantee: if it doesn't get there, you don't pay

TEMPERATURE CONTROL

Count on Traffix for fast, reliable and economical temperature-controlled transportation solutions. When quality care makes the difference, our partners trust us to be the best.

Traffix L&M provides:

- Suitable environment for safe transportation of any dry freight
- Hot, cold or constant room-temperature through any season
- Meticulously-maintained fleet of 53 ft temp controlled, air-ride trailers
- Cross-border team pickup from U.S. (including New York State, Michigan & Florida)
- Delivery to locations across U.S. and Canada
- 40 years of experience in temp control
- Excellent service record

L&M ensures your temperature-sensitive dry goods are delivered to their final destination on a single truck. With less handling, temperatures remain constant and the risk of damage is greatly reduced.

Traffix Fresh also offers:

- Pickup and delivery of sensitive produce
- Multi-pick consolidations
- Private fleet of reefers, dry vans and flatbeds
- On-site consultation services by the Traffix Fresh logistical team (multi-modal & time vs. cost)
- Personalized service and 24-hour freight monitoring
- Advice for the resolution of your pre-existing transportation concerns

Traffix Fresh offers reliable transportation solutions for time-sensitive freight, getting you there on time every time, when every hour counts. You've worked hard to grow your business. Trust Traffix Fresh to protect your perishables.

"At Foods Gourmet, our products are expensive and highly temperature sensitive. We rely on timely deliveries of raw materials for manufacture and of finished goods directly to our customer's distribution channels. If these deliveries were not to arrive on time it would have a huge impact on our business. We do not trust anyone except Traffix to handle this aspect of our business. They have been servicing Foods Gourmet transport requirements in NSW since 1993. We can always rely on professional, timely, friendly and dedicated service when we deal with Traffix. I have no hesitation in recommending them to any other organization requiring frozen transport services."
